## RIXOS PREMIUM BODRUM HI-TECH MEETING EQUIPMENT DETAILS

### MEETING CAPACITY CHART

HALLS	THEATRE	CLASSROOM	RECEPTION	BANQUET (O)	BANQUET (-)	U SHAPE	DAY LIGHT
SANDAL	350	140	350	150	180	-	NO
PIRAN	80	42	50	50	50	41	NO
KARAN	80	42	50	50	50	41	NO
FOYER	N/A	N/A	300	N/A	N/A	-	-

### CONFERENCE SOUND SYSTEM

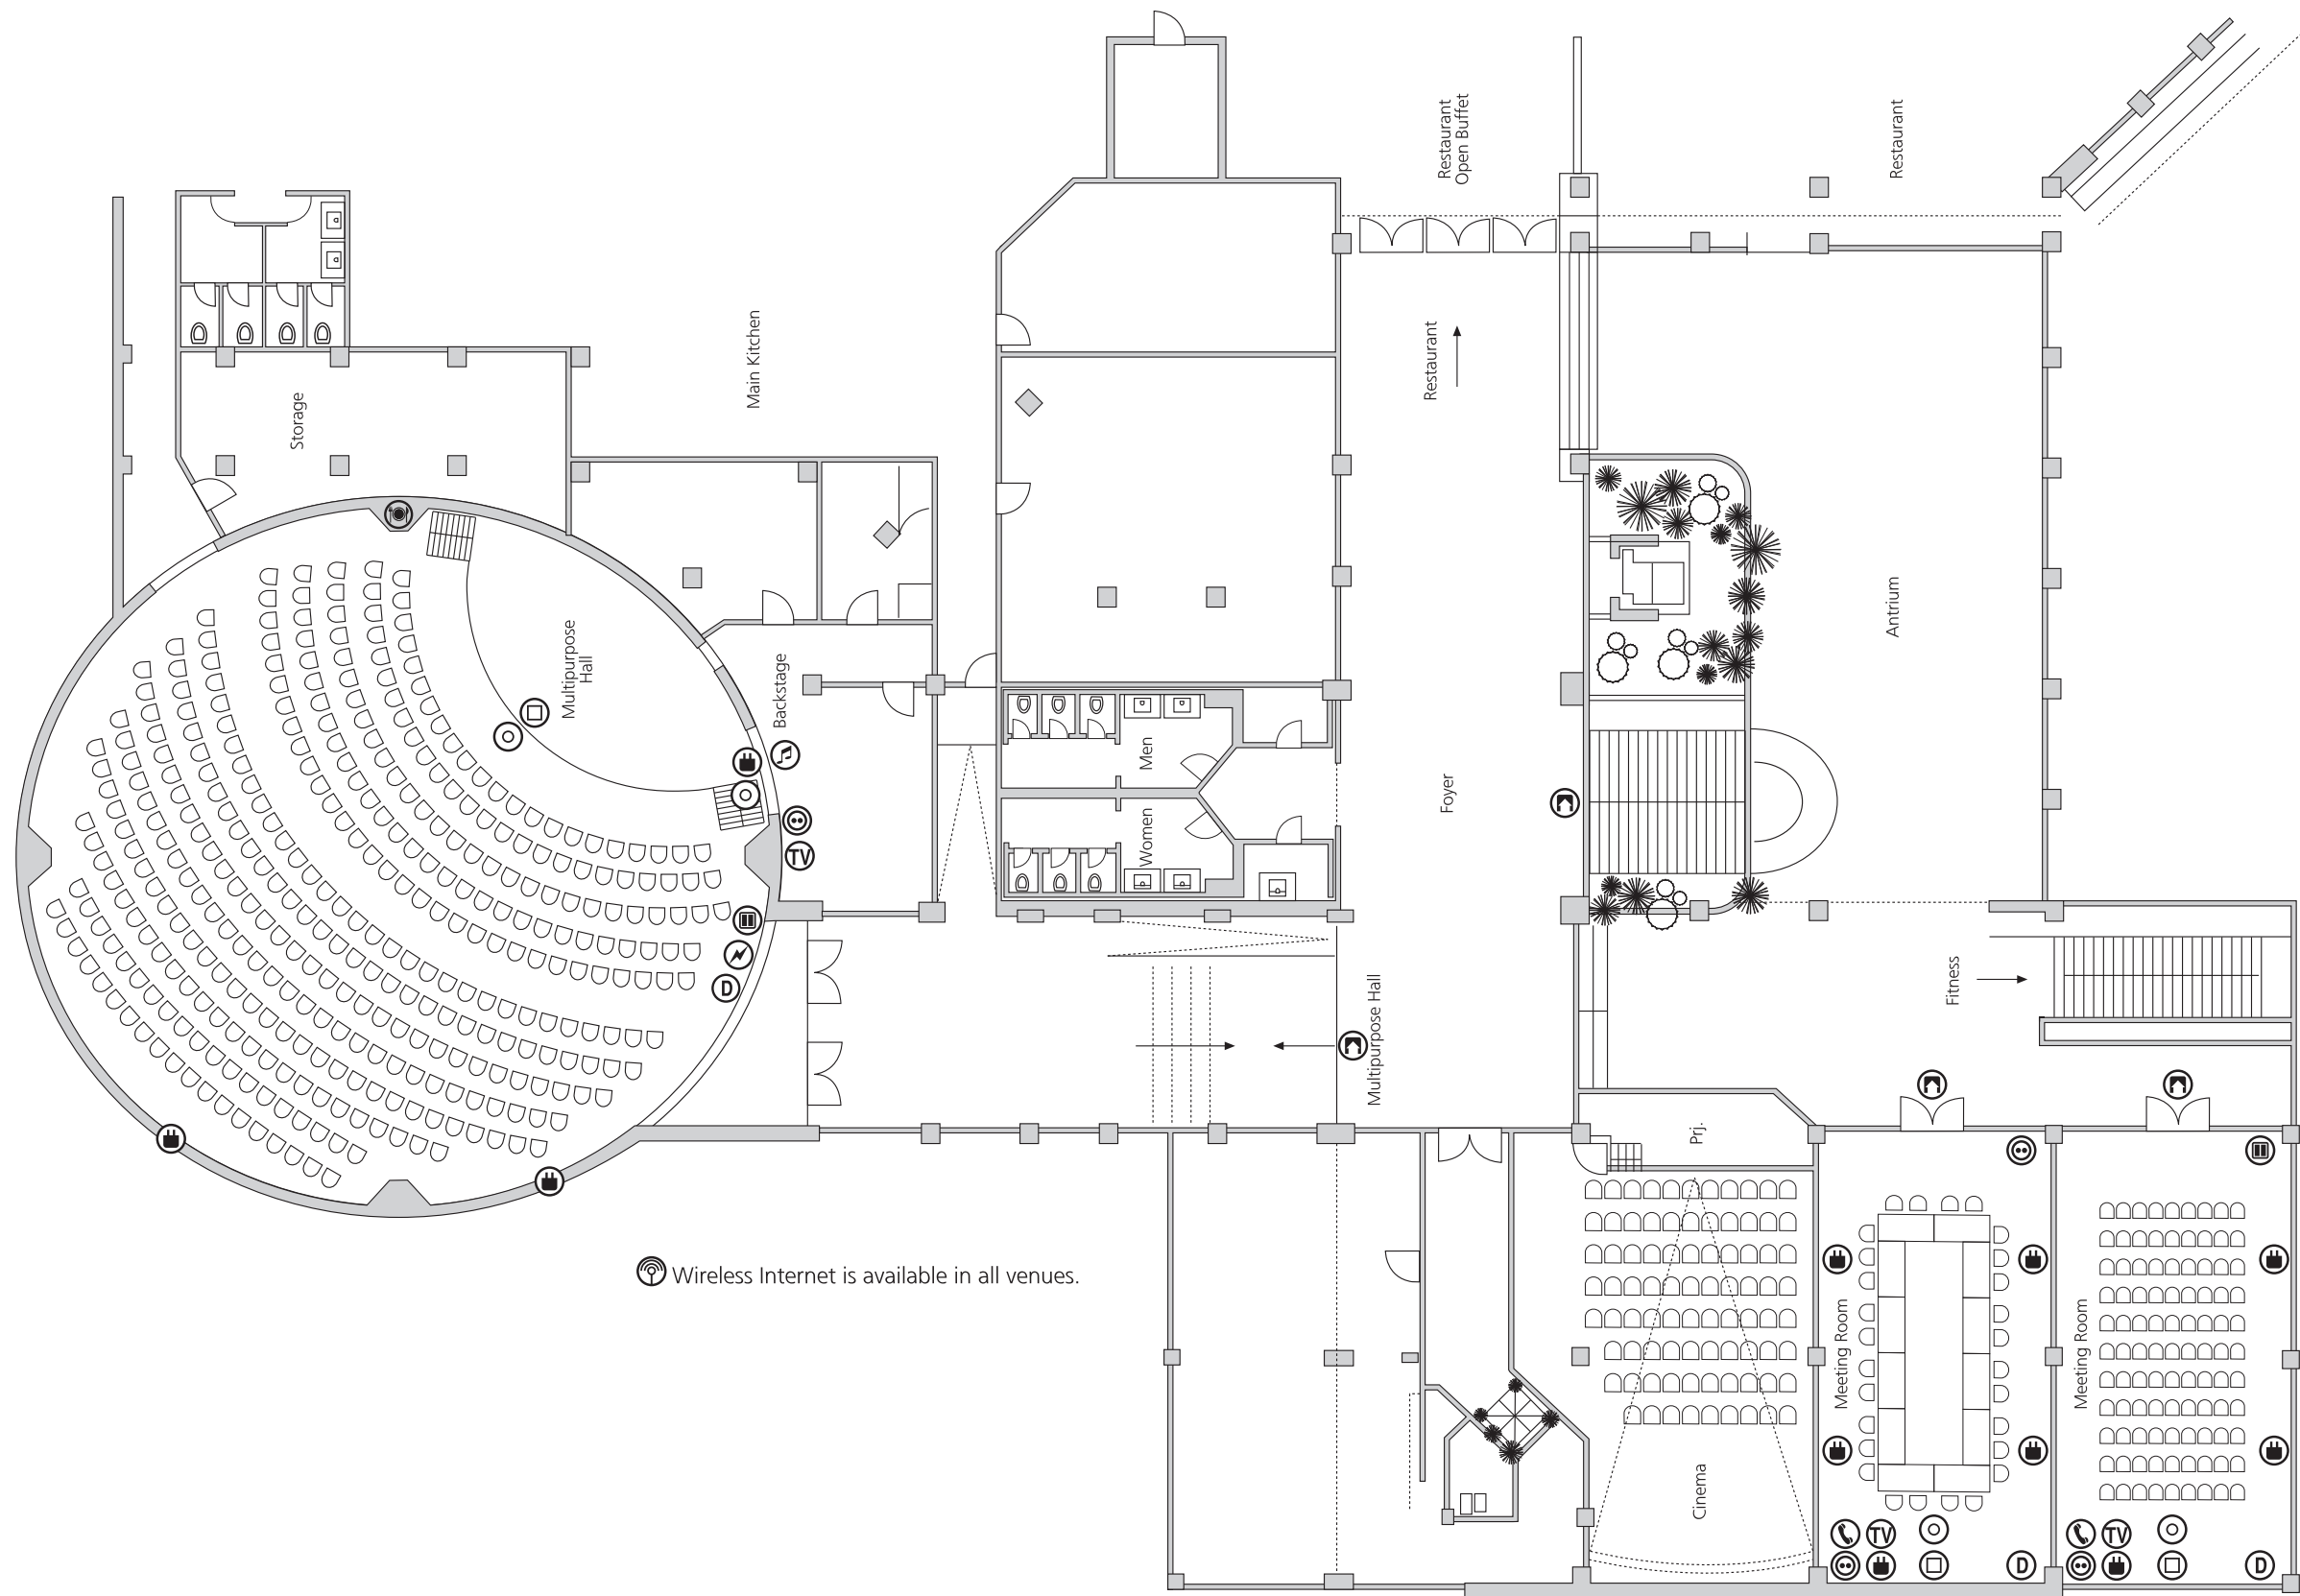

Established in both main conference rooms, the sound systems can be used as a unit or divided into three with separate controls. The sound systems have been designed with a digital sound mixer and so that they can be controlled cable-free from the automation panel. All the wireless microphones are with high frequency and have multi channels.

There is a conference microphone system comprising one chair and delegate microphones. Cassette player, CD player, MD player, DVD player and VHS video player are included in the conference room equipments. Ceiling speakers are used in the sound system in order to distribute sound to be homogeneous.

### NETWORK INFRASTRUCTURE

Internet access can be provided. This access can be extended to all rooms in the conference centre by means of the network infrastructure. The cable infrastructure has been set up for Internet connection in all conference room and for each stand in the foyer. In addition, because of the infrastructure, internal networking can be established between conference rooms.
